PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years building production web applications for Honda Malaysia, ERL and UNZA: PHP/Laravel and Kotlin backends, Flutter Web frontends, REST APIs and Docker-based environments. Led a zero-downtime migration of a legacy Honda system to a modern containerized stack. Also built and launched a Next.js + Supabase donation portal solo for an NGO, from requirements through deployment and support.

TECHNICAL SKILLS

Languages	PHP, TypeScript, JavaScript, Kotlin, Dart, Python, SQL
Frontend	Flutter Web, Next.js, React, HTML/CSS, Responsive UI
Backend	Laravel, Kotlin, REST API design, Supabase, Flask
Databases	MySQL, PostgreSQL, Firebase, Google Datastore
DevOps & Cloud	Docker, Docker Compose, Git/GitHub, Google Cloud Run, Vercel, AWS, DNS & SSL
Practices	Agile/Scrum, query & schema optimization, zero-downtime migration

PROFESSIONAL EXPERIENCE

Associate Consultant — Full-Stack Developer Oct 2024 – Present

E-Outsource Asia Sdn Bhd · Malaysia

- Delivered **10+ enterprise projects** for Honda Malaysia, ERL and UNZA across Flutter Web frontends and backend APIs.
- **Led backend API development in PHP/Laravel and MySQL** for Honda portals (Touch CR 2024, Supplier Portal), designing and optimizing RESTful services to remove performance bottlenecks.
- **Managed a zero-downtime migration** of the legacy Honda Touch system to a modern architecture, with no service interruption during rollout.
- Built responsive **Flutter Web** apps including Honda Self Check-in (eMOB) and EV Car Booking with availability scheduling, plus ERL and UNZA business platforms.
- **Containerized Laravel and Kotlin backends with Docker / Docker Compose** for consistent local, staging and production environments; maintain and extend Kotlin services.

Freelance Full-Stack Developer — Bertuah 2026 Donation Portal 2026

Guitges (freelance) · Client: Pengasih Selangor (NGO)

- Built and launched a donation and lucky-draw portal **solo, end to end** in **Next.js, TypeScript and Supabase (PostgreSQL)**, live at derma.pengasihselangor.com.my.
- Implemented the donor flow with bank-transfer receipt uploads, plus an admin workflow for receipt verification and the lucky draw.
- Compared Vercel, Netlify, Cloudflare Pages and Cloud Run; deployed on **Google Cloud Run** with budget alerts and instance caps to protect a non-profit budget.
- Set up the custom subdomain DNS and SSL with the client's provider, and a scheduled keep-alive job to prevent Supabase free-tier pausing.

Software Development Intern — Backend & API Mar 2024 – Sep 2024

E-Outsource Asia Sdn Bhd

- Built and deployed production REST API services serving **1,000+ daily active users**; backend modules for automotive client portals were merged and shipped to production.
- Applied SQL query and schema optimizations that improved application response times.

Frontend Developer Intern Aug 2023 – Oct 2023

INNOHUB, Putra Science Park

- Built a sports-analysis web system (Python Flask) with real-time data processing, Google Maps / Geolocation APIs, and Firebase Authentication with Google Datastore.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science (Networking) — CGPA 3.76 Sep 2020 – Sep 2024

Universiti Putra Malaysia (UPM)

AWS Certified Cloud Practitioner (2024) · The Web Developer Bootcamp, Udemy (2023)

ACHIEVEMENTS

- Silver Medal, RISE 2023 (International Research Symposium and Exposition) · Gold Medal, Science & Mathematics Olympiad
- Anti-Phishing Awareness Tool, Hilti IT Competition: gamified tool to teach users to spot phishing
- Publicity Lead, Serdang Royals Debate Club
